Electric Vehicle Charging Equipment Supplier Directory

Updated September 2019

***** IMPORTANT NOTICE *****

This directory is provided for the use of applicants to Nebraska's 2019 Electric Vehicle Charging Rebate Program. It lists suppliers of networked electric vehicle charging equipment and/or charging network services. Suppliers are listed in alphabetical order.

This directory has been compiled from public information obtained through searches of the Internet, from attendees at the 2019 Nebraska EV Infrastructure Conference, and from comments provided to the Department. This directory is for informational purposes only. Applicants should discuss the EV Charging Rebate Program requirements thoroughly with any vendor listed in this directory to ensure that any equipment or services provided meet those requirements.

The Nebraska Department of Environment and Energy makes no representations whatsoever regarding the character or quality of the firms listed, nor does it endorse or recommend the equipment or services provided.

This directory may not be complete. To submit additions to this directory, please contact:
