County: _____

Site Address: _____

Directions from nearest municipality: _____

Signatures

If granted this permit, we the undersigned, agree to abide by all applicable requirements including state laws, regulations, orders, and decisions of the Nebraska Department of Environment and Energy. We understand that in the event of any false or fraudulent information contained in the application or data or failure to operate the area or facility in a proper and legal manner that ensures protection of the public health and the environment, the permit may be revoked by the Nebraska Department of Environment and Energy. We understand the permit may be transferred only upon the Director's approval. We understand that the permit is being issued only to the named Permittee and all waste tires hauled under this permit will be hauled by the named Permittee and/or their employees. We further understand that by signing below, we hereby certify that the information submitted is true, accurate, and complete.

PLEASE COMPLETE ALL INFORMATION BELOW (DO NOT LEAVE ANY LINES BLANK)

Signature of Applicant*: _____

(***Signature of Applicant** pursuant to Title 132, Chapter 14, 009: All permit applications and any supplemental application material submitted to the Department, as required in Section 008 of this chapter, shall be signed:

009.01: In the case of a corporation, by a principal executive officer of at least the level of vice-president;

009.02: In the case of a partnership or sole proprietorship, by a general partner or the sole proprietor, respectively;

009.03: In the case of a municipal, state, federal, or other public entity, by either a principal executive officer or ranking elected official.)

Title of Applicant: _____ Date: _____

Printed or Typed Name of Applicant: _____

Permit Fees:

There are no permit fees. The permit will be issued for a one-year period and will be renewed annually. Annual reports covering the hauling activities for the previous calendar year and new permit applications must be submitted each year to qualify for a permit renewal. The permit period will be from April 1 through March 31.

Application Submittal:

Retain a copy of the application for your operating records and submit the original completed application to:

Nebraska Department of Environment and Energy
Waste Permit Section
P.O. Box 98922
Lincoln, NE 68509-8922

Current permit holders please update any information as necessary.

Please number and answer all applicable questions on a separate sheet of paper.

Waste Tire Haulers

1. If your business is a corporation or a limited liability company, provide a copy of the articles of incorporation (or articles of organization) and the name and address of the officers or members that have authority to represent the corporation or limited liability company.
2. Describe, or attach a map showing, the geographical area you serve.
3. Provide a general description of your waste tire hauling operation. For example do you operate a normal route or set out containers for collection; what is the frequency of providing collection services; do you haul tires in other states and if so provide a copy of a valid hauling permit for each state; do you bring waste tires from other states into Nebraska or collect Nebraska waste tires and haul to other states; and etc.
4. Provide the name and address of all facilities and locations where waste tires are delivered or deposited. Include a description of what happens to the waste tires you deliver or deposit.
5. For new hauler only, estimate the quantity and type of waste tires that you expect to transport annually.

Please report quantity by number of tires or by tonnage. Please indicate by checking appropriate category. Number of tires (PTE) Tonnage

Quantity	Type
	Passenger Tires
	Truck tires less than or equal to 20"
	Truck tires greater than 20"
	Other, please describe

6. Permitted waste tire haulers who do not accumulate, collect, or process waste tires must establish and maintain financial assurance in an amount equal to \$5,000.00 if you haul 100,000 whole tires measured in passenger tire equivalents* or less per year or equal to \$10,000.00 if you haul over 100,000 whole tires measured in passenger tire equivalents* per year. Identify the financial assurance mechanism you will use as described in Title 132. The alternatives allowed for a waste tire hauler permit are a letter of credit, a surety bond, or an escrow account. An originally signed copy of the financial assurance must be submitted to the Department before the initial issuance of the permit. After the initial permit is issued the financial assurance mechanism does not have to be resubmitted each year the permit is renewed unless there are changes in the waste tire hauler's operation that would require changes in the financial assurance. Questions regarding Financial Assurance please contact the Waste Permit Section at 402-471-4210.
7. Permitted waste tire haulers that also accumulate, collect, recycle, or process waste tires must establish financial assurance in the amount equal to \$1.25 per passenger tire equivalent for the maximum amount of passenger tire equivalents of waste tires/waste tire material, except crumb

rubber, accumulated on site at any one time. Identify the financial assurance mechanism you will use as described in Title 132. The alternatives allowed for a waste tire hauler permit are a letter of credit, a surety bond, or an escrow account. An originally signed copy of the financial assurance must be submitted to the Department before the initial issuance of the permit. After the initial permit is issued the financial assurance mechanism does not have to be resubmitted each year the permit is renewed unless there are changes in the waste tire hauler's operation that would require changes in the financial assurance. Questions regarding Financial Assurance please contact the Waste Permit Section at 402-471-4210.

*Passenger tire equivalents are defined as twenty pounds by weight of waste tire or processed waste tire.

8. Permitted waste tire haulers that also accumulate, collect, recycle or process waste tires must provide an estimate of the maximum amount of passenger tire equivalents of waste tire material, except crumb rubber, accumulated on site at any one time. Waste tire material is defined as any form of waste tires.
9. Describe the vector (insects, rodents, etc.) control plan for any waste tires accumulated or collected.

10. Motor Vehicle Information

Complete the following information for each motor vehicle used by the applicant for hauling tires: (If more vehicles need to be added use separate piece of paper.)
